INTRODUCTION

This standard specifies requirements for accreditation of Smart Card Service Providers (SCSP) which:

a) need to demonstrate their ability to consistently provide services that meet the requirements of the interested party (Insurance companies, Ministry of Labour & Employment (MoLE)) with a view to provide complete services for issuance of Smart Cards to the families,

b) aims to enhance the interested party satisfaction through effective application of assessment process for continual improvement of the system.

All requirements of this standard are generic in nature and are intended to be applicable to all sizes of Smart Card Providers.

This standard is non-prescriptive in nature and the SCSP shall determine the extent of the prescriptions based on:

   a) applicable statutory and regulatory requirements
   b) applicable MoLE and Insurance companies requirements
   c) SCSP policies and objectives
   d) resources required for effective implementation of the standard

The scheme for accreditation of SMART CARD Service provider (SCSP) Organizations will help to assess the competence and credentials of service providers. The assessment process will help the Insurance Companies in selecting and empanelling a competent service provider organization through the Register of service providers maintained by QCI.

The Assessment Process in brief would follow the following methodology:

Step 1

* Desk top review of documents pertaining to legal entity and background of the organization, manpower, experience and other resources of the service provider organization etc. for providing the requisite services. This will be in line with the QCI Accreditation criteria for RSBY Smart Card Service providers organization. A Provisional Accreditation will be granted to SCSP on meeting the QCI criteria which will be valid for one year.

Step 2

* On site verification and assessment as per QCI checklist for Smart Card Providers to be conducted by the Insurance Company/ies. The Insurance Company/ies will submit a copy of report to both QCI & MoLE.

The SCSP will be required to undergo assessment and obtain approval of meeting the Ministry’s and QCI accreditation norms from the respective Insurance Company within this period.
Note:

The application of SCSP for Final Accreditation will have to be placed within 3 months of receipt of first project work from the Insurance Company along with the field verification report.

If the SCSP is not able to submit the application for Final Accreditation within 3 months of receipt of first project work then SCSP will be allowed to apply again for Provisional Accreditation only after the gap of 9 months and they will not be allowed to take any new RSBY work during this period.

In case the SCSP fails to get final accreditation even after applying for it due to an issue related to SCSP or their performance then SCSP will be allowed to apply again for Provisional Accreditation only after a gap of 9 months and they will not be allowed to take any new RSBY work during this period.

All Service Providers (New & Existing) will have to first get the Provisional accreditation and then apply for the Final accreditation in three months failing which they shall not be allowed to participate in RSBY process any further. The Ministry of Labour and Employment reserves the right to relax these conditions for reasons expressed in writing.

Step 3  Annual Accreditation

The period of Provisional & Final Accreditation is one year.

The SCSP will have to undergo annual assessment cycle as per step 1 & 2 and will have to seek accreditation annually.

Note: The SCSP will move an application for renewal three months before the completion of the year so that the renewal process is completed well in time.

Step 4 (if required)

* Random sample evaluation or verification of any complaint against the SCSP organizations shall be done by QCI, when advised by the MoLE.
