Venue

ELCINA HOUSE, 422, Okhla Industrial Estate, Phase III,
New Delhi-110020, INDIA

for more details : <http://bit.ly/2UU9heR>

METHODOLOGY

The main focus of program is on “utilizing” and not ‘only knowing’ the STEPS. The training methodology consists of a mix of classroom learning and practice. There will be plenty of activities to facilitate the learning process. Workshop has easy to understand concepts at comfortable pace and an innovative learning experience benefiting both the participants and their organizations.

ABOUT THE PROGRAM

Organized problem solving methods utilize a variety of quality tools for problem analysis. STEPS are proven scientific management tools, which are basic and easy to understand. Different from traditional method of teaching the tools, this 1-day program focuses on building skill for interpreting the results and solving problems rationally, scientifically and effectively.

WHO SHOULD ATTEND

Engineers, Supervisors, and Managers working in Production, Quality, Production Engineering, and Maintenance functions, or those who are involved in trouble-shooting or improvements in any manufacturing industry. This is a must attend workshop for improvement project team leaders & members and all Six Sigma learners and practitioners.

BENEFITS

Key outcome of the course is direct and immediate implementation of STEPS at participants’ work area resulting into enhanced skills for analyzing and solving chronic problem, understanding the process and improved capability. Participants shall be issued a certificate after successful completion of the program.

PROGRAM FEES

₹ 3000/- Including GST per participant, payable at the time of nomination. Companies nominating 3 or more delegates will get a concession of 10% in the participation fee. Please note that the program is non-residential and participation fee is non-refundable.

10% Discount for the QCI Members
