jointly organising an Industry Education Program On

# RISK MANAGEMENT IN BUSINESSES

@ Chennai on 16th November  
2019, Saturday

## About the Program :

A Risk can be defined as an event or circumstance that has a negative effect on your business. Types of risk vary from business to business.

Business Teams must decide on how much risk they are prepared to take in their businesses. Some risks may be critical to their business success but at the same time exposing the business to wrong types of risks may be harmful.

The process of identifying risks, assessing risks and developing strategies to manage risks is known as Risk Management. A Risk Management Plan and a business impact analysis are important parts of Business Continuity Plan. By understanding potential risks in any business and finding ways to minimise their impacts, organisations manage to recover quickly if an incident occurs. It's important for organisations to allocate time and resources for preparing Risk Management Plan to reduce the likelihood of an incident affecting their business.

## Who Should Register ?

Business Owners, Strategy Teams, Business Analysts, Quality Coordinators / Quality Assurance Teams, Functional HODs, Managerial and Senior Managerial Cadres, Operations Heads, Production Heads, HR, IT, Finance, Procurement Teams, Marketing heads etc
